Professional Summary

Results-driven Network Security Engineer with hands-on enterprise firewall deployment experience (Check Point Gaia, Palo Alto) and practical TCP/IP packet analysis. Strong foundational knowledge in cloud infrastructure (AWS) and zero-trust network segmentation. Actively building SIEM (Splunk), threat triage, and NIST Incident Response competencies to transition into a Blue Team SOC Analyst role. Adept at leveraging Python for security automation and managing cross-functional incident escalations.

Education

Anjuman College of Engineering and Technology

B.Tech in Computer Science & Engineering – CGPA: 8.3

May 2026

India

- **Relevant Coursework:** Cybersecurity, Network Security, Cloud Computing, Data Structures, AI, DBMS, Machine Learning.

St. Xavier's High School

Higher Secondary Certificate (HSC): 68% | Senior Secondary School (SSC): 83%

June 2020 - June 2022

India

Professional Experience

Magma Technology

Network and Security AI Engineer L2 Plus

February 2026 - May 2026

India

- Architected and maintained secure enterprise network infrastructures; executed configurations and complex troubleshooting of 15+ production routers, switches, and core gateways, contributing to a 15% reduction in average network downtime.
- Enforced corporate access controls and security baseline measures; continuously monitored perimeter firewalls and multi-tier VPN topologies, analyzing 500+ daily systemic network monitoring logs to isolate threats.
- Served as a core escalation resource for investigating security incidents, resolving 30+ high-priority network anomalies and coordinating across cross-functional teams to maintain 99.9% high availability and data confidentiality.

Technical Internships

Zscaler / EduSkills AICTE

Zero Trust Cloud Security Virtual Intern

April 2026 - June 2026

Remote

- Graduated from an 8-week intensive training program with a 100% completion rate, achieving an 'O' (Outstanding) grade in Zero Trust Network Access (ZTNA) frameworks and Secure Access Service Edge (SASE) principles.

Palo Alto Networks / EduSkills AICTE

Cybersecurity Virtual Intern

January 2026 - March 2026

Remote

- Navigated intensive specialization tracking labs covering 20+ Palo Alto hardware rules, Next-Generation Firewalls (NGFW), Strata access policy engines, and Cortex endpoint threat telemetry.

Fortinet / EduSkills AICTE

Network Security Virtual Intern

April 2025 - June 2025

Remote

- Mastered validated technical knowledge in unified protection deployments; evaluated 5+ Fortinet Security Fabric blueprints and simulated robust threat mitigation policies.

Multiple Virtual Organizations

Technical Trainee (Cloud, AI & Web Development)

January 2024 - December 2025

Remote

- Finalized 5+ virtual engagements via **Google Cloud, IBM SkillsBuild, Shell India, EY GDS, Siemens, and BrainOvision.**
- Programmed 3+ foundational infrastructure and data projects including an AWS IAM cross-account architecture, an open-source garbage classification CNN model, and a secure MERN stack web application.

Projects

Home SOC Lab: Splunk SIEM & AWS CloudTrail Ingestion | *Splunk, AWS, MITRE ATT&CK*

In Progress

- Orchestrating a dedicated local SOC environment to ingest AWS CloudTrail and VPC Flow Logs into a Splunk instance, preparing to analyze 10,000+ mock security events.
- Formulating custom Splunk SPL detection rules mapped to MITRE ATT&CK techniques (T1078, T1110) for brute-force alerting and rapid incident triage workflows.

Distributed Enterprise Firewall Topology | *Check Point Gaia, Cisco, GNS3, Python*

Completed

- Modeled and simulated a highly available multi-branch corporate network featuring 3 redundant Check Point VSX infrastructure layers and isolated virtual switch networks.

High-Performance Packet Analyzer | *C++, libpcap, Linux, TCP/IP*

Completed

- Coded a native multi-threaded traffic sniffer application using C++ to decode real-time packet structures with sub-millisecond latency, parse network headers, and apply rule-based kernel filtering logic.

Publications & Research

AI-Based Yoga Pose Detection And Wellness System | *IRJAEH & ICESM*

April 2026

- Co-authored a peer-reviewed manuscript in the International Research Journal on Advanced Engineering Hub and delivered an oral presentation at ICESM-2026.

Mass Email Automation With AWS SES And Lambda | *ICTTSEM-25*

April 2025

- Drafted and presented a research paper at the International Conference on Tech-Trends in Science, Engineering & Management.

Technical Skills

SIEM & Defense: Splunk, Threat Triage, NIST Incident Response, EDR/XDR, Log Correlation, MITRE ATT&CK

Cybersecurity & Firewalls: Check Point Gaia OS (CCSA, CCVS), Palo Alto (Strata/Cortex), Zscaler ZTNA, Fortinet Fabric Tools & Simulation: GNS3, Cisco Packet Tracer, Kali Linux, Wireshark, OpenStego, Packet Auditing

Cloud & Infrastructure: AWS (IAM, CloudTrail, SES, Lambda, VPC), Google Cloud Platform (GCP), Security Architecture

Programming & Web Dev: C/C++, Python, Bash, Java, MERN Stack (MongoDB, Express, React, Node.js), RESTful APIs

Certifications & Digital Credentials

National Rankings: GATE Engineering Matrix Qualified (Score: 355)

Cybersecurity Certifications: Check Point Certified Security Administrator (CCSA), Check Point VSX Specialist (CCVS), Fortinet Certified Associate (FCA), IBM Advanced Cybersecurity Digital Credential

Cloud & Data: Google Cloud Network Security Track Specialization, NPTEL Data Analytics with Python (Elite Designation)

Leadership & Extracurricular Activities

Hackathons: Competed in 24-Hour Hack-Wack (SB Jain Institute), Code Clash (Battle of Bytes), and TechSaga.

Community & Leadership: Active Member of the National Service Scheme (NSS) and Krans Community.

Athletics: Former competitive Judo athlete; represented institution at university-level Fencing tournaments.
